Subject: Response to callers - Gold King Mine Release

Provide our website: www2.epa.gov/region8/gold-king-mine-release-emergency-response

Yes, it's a long website. You may want to ask the caller if they'd like to repeat it back to you. Tim said the website address should be shortened within the next couple of days so I'll give you the shortened version as soon as we have it. All information we have related to the spill will be added to this website. A Frequently Asked Questions page is being developed. The FAQ's will be developed based on questions asked during public meetings, questions received during Press Conferences and now Paula will share the questions from Craig and Rose with the person who is developing the FAQ page.

But, the bottom line is to direct callers to the webpage. Any and all information we have will be on the website.

Media Calls (press only): Give them the call in information for press calls (provided in earlier email).
